

**Willow Flycatcher (*Empidonax traillii*)**

**WINTER:** NO RECORDS.

**SUMMER:** Fairly Common to Common Resident. See Remarks section for Alder Flycatcher.

**MIGRATION:**

**Spring:** Fairly Common to Common Migrant arriving from early to mid-May. Early dates, 02 May 2010 (MG, DP); 04 May 2003 (HS); 05 May 2012 (GR); 06 May 1998 (HS); 07 May 1997 (HS); 08 May 2011 (DP). See Remarks section.

**Fall:** Data insufficient. Singing males are present into late July and *Empidonax spp.*, present on confirmed nesting sites into August, are probably Willow Flycatchers. Non-singing individuals into fall should be recorded as Traill's Flycatcher. See Remarks section for Alder Flycatcher.

**REMARKS:**

Nesting: Late date, 03 August 2003, adults feeding HY (HS).

Spring: Records indicate the Willow Flycatcher arrives earlier in May than the Alder Flycatcher. See Remarks section for Alder Flycatcher.
